www.versapak.co.uk

Established in 1973, Versapak is a manufacturer of tamper evident ballot boxes, electoral supplies and security seals. Versapak has worked with national and local governments as well as trade unions and other organisations to understand the whole process of elections. We have developed a range of ballot boxes and other tamper evident electoral products knowing the importance of running an organised and unbiased election.

Ballot Boxes

Original 65 litres Size (WxHxD): 350x500x330mm Item: BALLOT2OP	Half-Sized 30 litres Size (WxHxD): 350x400x330mm Item: BALLOT1OP	Clear 65 litres Size (WxHxD): 350x500x330mm Item: BALLOT2OPCL
---	---	--

Our ballot boxes are unique as they are foldable (for ease of storage and transport), whilst also featuring a solid lid posting slot. This is necessary to prevent voters from being able to reach into a box and take slips out.

In addition each ballot box is fitted with dual tamper evident lids for the highest level of security during and after voting. This additional lid offers a section for the safe storage of the paperwork needed to accompany the ballot box. The lid is fitted with a locking mechanism for use with a security seal to ensure that the contents cannot be tampered with. The full size ballot box can hold up to 65 litres and is reusable for between 50-100 elections.

Tamper Evident Ballot Boxes

We use a patented design locking mechanism that makes it impossible to access the contents without showing signs of tampering. This is called the Versapak T2 Locking System.

Before its use within elections, the ballot box is zipped closed and made tamper evident using Versapak T2 security seals. Upon closing the slot lid and the slot cover, a seal is placed within each locking chamber. This ensures that the nobody attempts to insert ballots before its official use on election day.

On the day, the integrity of the ballot box is checked and the top lid is opened ready for ballots. Use Versapak's individually printed numbered or barcoded T2 seals to ensure a complete 'chain of custody'.

You have complete peace of mind with a Versapak Ballot Box. Ballots placed inside are secure in the chain of custody and at the end of the day, simply reseal with another T2 security seal. When its time to count, you have confidence of the ballots security and the achievement of a clean and fair election.

Security Seals

Sealing a Versapak ballot box with a T2 seal is very simple. Close the zip and fold the zip puller back over into the locking chamber. Then carefully push a Versapak T2 Security Seal in place until you hear both legs click in place. The ballot box is now tamper evident.

PERSONALISED T2

Using Many Security Seals?
We Recycle!

Did you know that 7,000 used, discarded seals weigh the same as an average car tyre!

Additionally, we provide a range of pull, tie and box seals. They can be used with holdalls, boxes, furniture and containers to ensure the chain of custody in many other situations to store ballots.

Metal insert 350mm tail
Item: VERSATITE

Super strong 250mm tail
Item: VERSALOCK

Easy to tear off, 200/330mm
Item: VERSAPULLWTO

Versapak T2 Seals are now available as a Recycled Seal. Yes, that's right. We've taken the used remnants of plastic and remoulded into a completely new security seal.

PERSONALISED T2R

Other Electoral Products

We supply everything you need for an election, see below our other solutions for a clean election.

Presiding Officer Carry Case

This clear carrier is used by presiding officers during elections for important confidential paperwork. It is made from heavy duty clear material and fitted with a large gusset for bulky contents. It has reinforced carry handles for comfort and an internal entry address/identification window.

Item: BALLOTPRES
Size (WxHxD): 505 x 356 x 153mm

Clear Wallets (WxH)
Item: AS0. Size 320 x 230mm
Item: AS1. Size 460 x 370mm

Reusable Wallets and Pouches

Versapak reusable wallets and pouches are ideal for storing and transporting a variety of documents and stationery items. They are made from a strong, lightweight nylon PVC and include an entry address/identification window. They feature tamper evident T2 locking mechanisms suitable for the patented Versapak T2 Security Seal.

Available in Black/Clear material, or an assortment of colours, one for every political party!

Wallets (WxH)
Item: CVF1. Size 286 x 336mm
Item: CVF2. Size 355 x 381mm
Item: CVF3. Size 355 x 470mm

Bulk Pouches (WxH)
Item: ZG1. Size 355 x 250 x 75mm
Item: ZG2. Size 406 x 305 x 75mm
Item: ZG3. Size 457 x 355 x 75mm
Item: ZG4. Size 457 x 355 x 125mm

Polling Station Sign

Made from heavy duty PVC coated nylon with eyelets for ease of hanging, these signs are made in a range of shapes and sizes. They can also be made to order and can be printed with any logo or information you choose.

Item: POLLSIGN
Size (WxH) 405 x 300mm
Size (WxH): 810 x 170mm

Custom design your Versapak

Bespoke, easy to move and simple to track

Our electoral products can be made entirely to your needs; with options to specify sizes, add windows and print your own logo. For tracking purposes we can offer barcode or numbered seals that create the 'chain of custody'.

With fast, reliable deliveries from our UK warehouse, you can be sure you'll have all you need for the next election at Versapak.
