

Versapak Security Seals

To ensure that the valuable contents of your bag cannot be tampered with, we manufacture security seals to accompany our products. We offer 4 different types of security seals as you can see below.

Versapak T2 Seals
Versapak's premium seal has a unique patented design with an increased printable surface space to allow for easy scanning and readability of barcodes and numbers. It also has two prongs for added security. The T2 offers you the ultimate level of tamper evidence and traceability. It is available plain, numbered, personalised and barcoded in a choice of colours.

Versapak T Seals
The two-pronged design makes them more secure than other plastic seals on the market. They are available plain, numbered, printed or barcoded, and in a variety of colours.

Versapak Button Seals
The genuine Versapak button seal is available in a range of colours, and can be overprinted with unique security numbers, a company name, logo or a 128 barcode.

Versapak Arrow Seals
We designed the arrow seal for use with secure bags and pouches that have been fitted with the arrow style sealing system. Plain or numbered the arrow seal is also available in a range of colours.

We also offer a range of pull and tie seals. Please visit www.versapak.co.uk for more information.

We can custom make your bags

We work closely with our customers to understand their exact requirements so that we can provide the most suitable and cost effective solution to their needs. We manufacture all of our bags in our own factory in Europe which means that we do not impose large minimum order quantities or lengthy lead times. You may want to make a small adaptation to one of our standard bags, such as printing a company name or logo on the bag, or it might mean a completely new design.

Whichever of these applies to you, please contact us and we will be happy to create a fit for purpose Versapak bag.

Tamper Evident Cash Solutions

from Versapak

Tel: +44 (0)20 8333 5300 www.versapak.co.uk
www.versapakinternational.com for international customers

For over 40 years, Versapak has been manufacturing tamper evident cash solutions.

Used across a wide variety of industries including banking, retail and security, the Versapak range of secure cash products are manufactured using high quality material which makes them durable, weather resistant and strong enough to carry large amounts of cash and coins. The range also includes carriers for ATM cassettes and chip and pin machines.

As with all Versapak bags, you can use them over 2,000 times and they are guaranteed for 5 years. They also incorporate the Versapak tamper evident sealing system, which when used with our security seals, ensures that the contents of the bag cannot be tampered with in transit.

Our tamper evident security seals are available with numbers or barcodes which is essential for many of our customers to enable them to track and trace.

Secure Cash Bag

Our secure cash bags are used to transport and store cash and till receipts. They provide a cost-effective alternative to plastic bags.

Dimensions (WxHxD)

Small cash bags (CCB0): 152 x 178 x 50mm
Medium cash bags (CCB1): 267 x 267 x 50mm
Large cash bags (CCB4): 356 x 356 x 50mm
Mini Cash bags (MINCASHBAG): 100 x 140 x 25mm

Cash in Transit Bag

The Versapak cash in transit bag is larger than our standard cash bag and has a reinforced wooden base and metal feet to carry a larger amount of notes and coins.

Dimensions (WxHxD)

Square (KTH0): 300 x 300 x 150mm
Rectangle (KTH1): 350 x 160 x 160mm

Secure ATM Cassette Carrier

The Versapak secure ATM cassette carrier is used to safely transport ATM cassettes. It is made from 300gsm polywide mesh and has a stiffened bottom to protect the cassette when it is put on the ground. It is fitted with the Versapak tamper evident locking mechanism which when fastened with a T2 security seal ensures that the contents cannot be tampered with. Each carrier can hold 1 x NCR cassette but we can custom make the bag to suit your specific requirements.

Dimensions (WxHxD):

200 x 390 x 130mm

We also manufacture a bag that holds multiple ATM cassettes - please contact us for more information.

Chip and Pin Reader Storage

Designed to store and transport chip and pin machines and accompanying equipment, these protective carriers have a foam insert to provide the ultimate protection.

Dimensions (WxHxD):

350 x 320 x 150mm

Security Sacks

Versapak security sacks are used to store very large amounts of cash or ATM cassettes. Please note that these sacks are fitted with a T-Bar closing mechanism and not the Versapak tamper evident locking device.

Dimensions (WxH)

Small (SK1437): 400 x 530mm
Large (SK1438): 520 x 870mm

Secure Till Drawer Cover

The Versapak secure till drawer cover enables the safe storage of till drawers and it has a zip which opens on 3 sides for ease of handling.

Dimensions (WxHxD)

400 x 329 x 75mm

Security Envelopes

As part of our range of tamper evident security products, we also supply disposable envelopes intended for single use. They come in packs of 500.

Dimensions:

Size 1 - Internal size (mm): 177 x 335 + 1 receipt
Size 2 - Internal size (mm): 260 x 415 + 1 receipt

Cash in Transit Box

This industry standard cash in transit security box is designed to carry heavier and/or bulkier cash loads. Once cash is loaded into the box, the box is sealed using one of our uniquely numbered security seals or locks.

Dimensions (WxHxD)

External: 320 x 520 x 160mm
Internal: 300 x 410 x 150mm
